PRESENTATION

STEMS WITH APLIQUICK

PREPARATION FLOWER 1

FLOWER 1 WITH APLIQUICK

APLIQUICK ACADEMY

Course taught by Rosa Rojas, the creator of the innovative APLIQUICK®™ application technique.

In this course we will do the Lotus Flower, also known as sacred lotus, Indian lotus or rose of the Nile, it is considered a sacred plant in China and India, for which it has been attributed multiple meanings and symbolisms....

Learn how to work each flower in a simple and organized way, enjoying your projects!

Do you think silk is too difficult to work with and that's why you don't include it in your applications? Not with Apliquick! And you'll be able to see for yourself in this course!

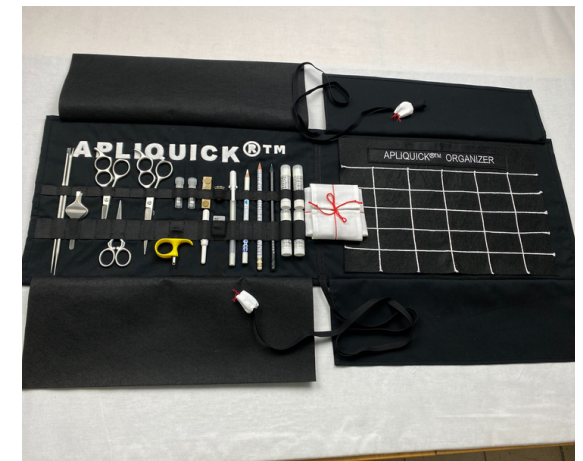

We will teach you all the tricks to make your appliques easy, fast and perfect!

Apply your flower individually, or together with other flowers to form a bouquet; or place it on our original pallet, a beautiful quilt specially designed to hold all the flowers you will find in our Apliquick Academy.

Available in our online shop :
